BENEFITS:

- Open shoulder design with regenerating tread technologies for optimum grip throughout life
- 28/32nds of tread with compounding designed to deliver scrub resistance and high mileage
- Co-extruded compounding, designed to reduce heat build up protecting the casing and improving fuel efficiency
- Teardrop grooves at the base of the sipes designed to provide reduced stress under high torque conditions
- Block bridges designed to provide additional support to reduce irregular wear and improve durability for the open shoulder

Tread Size	Metric	220	230	240
Tread Depth	Metric	22 mm		
	Inches	28/32"		

Full-Depth Matrix Siping
The sipe goes all the way to a teardrop groove, helping to reduce loss of the biting grip as the tire wears

Tread Regeneration
Siping opens to a tread groove once worn to help with additional water evacuation and traction
