Michelin Retread Technologies

Drive

XDA4S M+S

MULTIPURPOSE

For use on long or regional distances allowing transport of passengers in total safety with high comfort in all weather conditions.

GRIP FOR MORE SAFETY

The patented "double-wave" sipes bring a great improvement in grip when 2/3 worn.

MICHELIN PATENT

«double-wave» sipes

MILEAGE PERFORMANCE

The "double-wave" sipes effect results in a less mobile tread pattern. Combined with the increased volume of rubber (+ 2mm in comparison with XDA4), this generates an improved mileage performance.

ADVICE FOR RECAMIC RETREADED TYRES

- Fit Recamic retreaded tyres on the rear axles of motor vehicles.
- Recamic tyres can be fitted in all axle positions for trailers and semi-trailers.

THE RECAMIC RANGE

LONG DISTANCE TRANSPORT

- Motorways and major trunk roads
- Minimal braking and accelerating

REGIONAL TRANSPORT

- Long distances on trunk and regional roads with frequent braking and accelerating
- Shorter distances on regional journeys with frequent stops
- Access to loading and unloading points on slightly aggressive ground
- Difficult weather conditions (rain, snow, ice)

COACH-INTERCITY TRANSPORT

- Long distances on trunk and regional roads with frequent braking and accelerating
- Shorter distances on regional journeys with frequent stops

URBAN TRANSPORT

- Driving in urban areas with very frequent stops (Buses, waste trucks, roadwork vehicles, etc)

WORKSITE TRANSPORT

- Driving generally over short distances and on all types of road
- Access to difficult loading or unloading points
- Requires off-road traction
